

### Project Purpose:

The purpose of this project is to replace the current bridge with a bridge that meets current vertical clearance standards. The girders on the existing bridge have been hit numerous times by non-legal oversized loads.

### Project Description:

This project will construct a new bridge with an increased vertical clearance at the junction of State Route 99 and State Route 46 in Kern County near the city of Famoso. It will also re-align the southbound on-ramp and off-ramp for State Route 99 onto State Route 46.

**Construction Cost:** \$18.5 million

**Begin Construction:** October 2017

**Construction Complete:** October 2019

**Funding Sources:** State Highway Operational and Protection Program (SHOPP)

**Project Partners:** California Department of Transportation (Caltrans)

# State Route 46/99

Famoso SR 46/99 Bridge  
Kern County
